Summary

I am system analyst, full stack developer and a scrum master. I've worked with .Net C# for seven years and I am also diving into nodejs, reactjs and react native for three years. I work with a small team, trying everyday to improve ourselves, so we can face the challenges ahead of us and rise to the occasion.

Experience

System Analyst | Full Stack Developer | SCRUM Master

Laboratório Sodré

Jan 2018 - May 2020 (2 years 5 months)

Designed, developed and sustained the entire production system, from managing their chain of custody to delivering the results to the clients.

System Analyst | Full Stack Developer

Celecsys

Jan 2015 - Jan 2018 (3 years 1 month)

Designed and developed a ERP system for livestock. Currently working with C# .NET, Visual Studio, SQLServer and many others technologies.

Among the main skills acquired in this professional experience, I highlight:

- Development of Web Systems using Asp.NET e C#
- MVC Architecture
- UML
- Clean Code
- Relational Databases
- Front-end development using the most recent technologies (jQuery and others)

Application Developer (SAP-ABAP)

ITeam

Apr 2014 - Oct 2014 (7 months)

Application Developer (SAP-ABAP) - ALV, Module Pool.

Intern

CTGEO - CENTRO DE GEOPROCESSAMENTO

Mar 2013 - Jan 2014 (11 months)

I started the internship in my second year of college. I partook in a projects rotation, learning Java, C#, SQL among several other technologies. I had the opportunity to learn Clean Code techniques and participate in projects for the development of internal management software in the company, automating and improving the process of all sectors.
